\*All fiber must be "squeaky clean" to produce the best roving/batts possible.

If you choose to wash your fiber, make sure it is clean, grease-free and well rinsed. Please do not use any additives (such as fabric softener) as these must be washed out prior to processing.

All fine/high grease wools need be washed at least 3 times. These include Merino, Rambouillet, Debouillet, Corriedale, Cormo, CVM and other fine wools.
