**Deposit Information:**

We require a 25% deposit with the delivery of your fiber. To estimate your deposit amount take the number of bags or fleeces you have and multiply that by 2.5 (an average fleece weighs between 2.5 and 3 lbs). This will give you an estimated weight. Then you can calculate what your estimated 25% deposit should be depending on what services you are requesting.

We only accept fleece in clear bags and each bag must be marked with your name and animals name or number. We seek to process your fiber into the best quality product we can, however, there are varying factors beyond our control that can affect the quality of your end product. Skirting your fleeces and removing stickers, vegetation and guard hair will greatly improve the quality of your product.

I have reviewed the price list and am aware of the prices and conditions for processing my fiber. I authorize Heart & Soul Spinnery to process my fiber.
