

Would you like to promote your business within a market specific audience? Consider the PNAA Summer Educational Conference being held June 23-25 in Prosser, WA.

The Pacific Northwest Alpaca Association (Tax ID # 91-1843516) is a non-profit community of alpaca owners dedicated to the promotion of our regional and national livestock and fiber industries. With over 40 member farms, we support one another through education, marketing, and evaluation (shows). All camelid owners are welcome to join.

Members from Washington, Oregon, Idaho and Montana gather in the Yakima Valley each summer for a weekend of learning and fellowship. We would be glad for your support, either with a financial gift to offset conference expenses, or a gift of goods or services for the event. In return you will receive promotional recognition, an opportunity to interface with our members, and our hearty thanks.
