

April 15, 2021

A farm qualifies as a small breeder when it has no more than 20 AOA registered females at the time of registration. Show Superintendents shall verify eligibility through an active AOA account and/or Owner of Record for Show Entry.

“Small Breeder” classes are intended to encourage breeders to show their alpacas with other similarly sized farms. These classes are meant to foster and further the education of small breeders through class placements and judge comments.
